# BRIEFING PART I

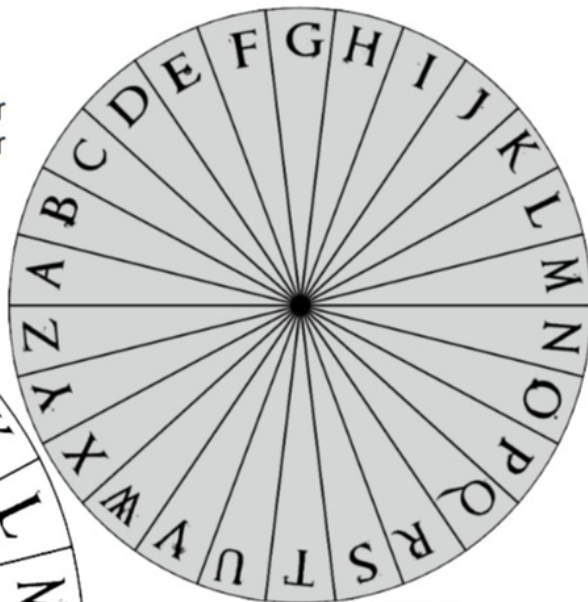

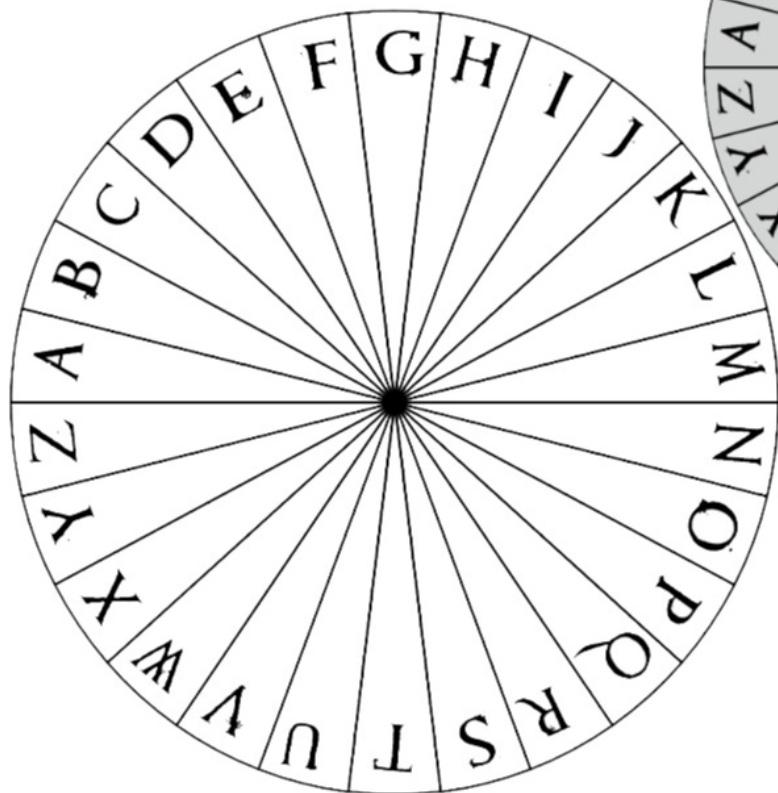

This case has taken an unexpected turn and we have been in contact with the Demersville Police Department. After the discovery of the body, the Lupine Grove Woods were searched extensively. They did find a bag containing a set of bloody clothes, baseball hat, sunglasses, and a phone, which is believed to belong to the victim. Footprints were also found in the area and photographed. The bag was found near the Lupine Lodge trail, leading police to believe the killer is staying at the Lodge. Police have also sent over photographs of collected evidence that you will find useful in your investigation.

In the initial examination of the body by the coroner, they found her liver mortis temp to conclude she was killed after hours the previous night, which also cancels out any "working hours" alibis by park employees. Its up to you to narrow down the suspect list.

No murder weapon has been found yet, but there was a stuffed bear found with the body. The bear is from the Shooting Gallery Game on Carnival Row. Stella could have won the bear earlier, or perhaps was a gift from the killer?

Mr. Big, has sent over a statement detailing employment information about his employees in hopes that will help in your investigation.

1. Read and Compare everything. The mysteries are story based, so check for hidden clues. Take notes if you must, you never know what small detail might be important. Look for pieces of evidence that might relate to each other, or something that suggests those items might fit together somehow. Keep your eyes open.
2. Solve all the puzzle. Each puzzle or clue gives important information to solve the case. If the clues are sectioned in envelopes, try and read and solve what you can before going on to the next.
3. Most clues or locations are QR Code based. You will need a scanner to open files and progress through the story line. Most of the QR codes in game are password protected and all the answers or keys are hidden in the clues and files.

**After Printing the files you will need to cut out each individual image and sort them into the 3 parts above. Once you are ready to play start at the beginning and do not move on to parts 1 or 2 until instructed during game play. The majority of the game images are in order on the printed sheets, but some are not as printing costs are always a concern.**

**If you get stuck check out the game files for Fun House at [redcabinetmysteries.com/files](http://redcabinetmysteries.com/files) there will be a hints and a solution page to help you out.**

I can't believe there has been a murder at the park. It's even harder to believe it might be one of my employees! I think whatever evidence you find now will help you eliminate suspects.

**Clyde**, has been working the park for 5 years. He joined us in Portland Oregon. Clyde is one of my most valued employees as he can work the entire park. He can run rides, do maintenance, and he is great working the Carnival Row games.

**Fortuna**, as I already told you has been with us from the beginning. She is my most prized employee. Having a real psychic on the team has been invaluable. She has been with us 7 years and is the highest paid of all. I think she uses glass instead of crystal balls as they keep breaking.

**Freddy Fast Hands**, is a juggling performer. He has been with us for a little over 4 years. He joined up with us in Seattle Washington. His girlfriend **Josie** joined us that year as well. She actually demanded she be hired as well or we couldn't have Freddy. She is a bit controlling and known to be viciously jealous at times. The duo has worked out well with their death defying juggling acts.

*A good juggler knows how to skip 123*

*Always start with an A and end with the Z*

*When you are ready just count by 3.*

The highlight of their performance includes, swords, daggers, and machetes.

**Gene**, has been here for about 6 years. He came on board in Boise, Idaho. I'm not one to hire felons, but he knows how to work a crowd and bring in the money on the carnival games. He could talk anybody into anything...when it comes to spending money on games. He is the oldest on the crew.

**Hank**, is a local from right here in Demersville. This is his second summer working the maintenance crew. He is dependable and strong and always ready to work. He carries his tool bag everywhere.

**Hannibal** and **Willa**, are the terrifying clowns. They have both been with the company for 5 years. Hannibal is from Washington and Willa is from Idaho. As far as I know they are not a couple, they just work really well together, and are great at scaring the daylights out of people with bloody prop weapons. They work specifically in The Haunted House of Terror. Willa always carries a pair of over sized scissors while Hannibal sticks to the classic butcher knife.

**Lady Viper**, is another local and newest performing act. She is a snake charmer trying to get her big break on the stage. Time will tell with her, but I also hear that she has got her eyes set on Clyde.

**Lilly**, works the Carnival Row games. She has been with the company for 3 years and joined us in Idaho. She is in charge of making sure the prize booths are stocked and carries a box cutter in her bag.

**Polly Paparazzi**, is another local girl trying to make her big break. She came to me last summer begging for a job and offered to take pictures around the park of families and couples in hopes of selling the "memories" back to the park goers. Of course I thought this was a great idea! This year however she has been writing a blog about carry life. She is willing to do anything for a story and has even printed lies on her website. I did not hire back this year, but she has been seen around with her camera.

# BRIEFING

Blackburn has been contacted to help with a local missing persons case. Stella Rose, was last seen at the Crazy Town Amusement Park (CTAP). Several witnesses claim to have seen the woman riding rides and enjoying the games on Carnival Row that night. Missing posters have been put up all over town as well as in the park in hopes that more people will come forward with answers to her whereabouts.

The owner of CTAP, who goes by the name Mr. Big has put out a statement and claims the park will do anything needed to assist with the case. In addition to hanging up all the missing posters, Mr. Big, has also offered a reward of \$5,000 for information leading to the location of Miss Stella Rose.

Blackburn needs you to go to the Park and interview anyone who might have seen Stella last night. Its only been a day since her disappearance, so it should still be fresh in their minds.

You will also need to check out the Lupine Lodge as well. Most of the workers are staying there as it is just a short jaunt through Lupine Grove to the park. Police have already combed the park for any evidence that Stella may have exited through the woods and nothing has been found to collaborate that yet. They are planning to search the woods next.

Mr. Big, has asked us to be discreet in our investigation. The park would like to maintain their family friendly reputation. CTAP, is the largest traveling entertainment park in the Northwest. The park travels all over Oregon, Washington, Idaho, and Montana. Most of the workers that travel with the park are either long time carries, professional actors, or stage performers. They do however hire a good amount of local help for the 3 weeks they are in town. Some, are hopeful for their big break and to be hired on full time.

Mr. Big sent over a ticket and a few other items for you to use. He asked you to meet him in his office "in the sky." The Ferris Wheel is in the heart of the Park and keeps time over the other attractions.
