

OREGON PATH VIDEO

SCROLL DOWN FOR HINT

On the front of the disk it mentions odd numbers.
Open the video file and look for any odd numbers that might be out of place. The disk clue also mentions to shift numbers to the right. The first number from the video that you need is 25...shift 1 number to right (staying odd) makes it a 27. 27 lines up with N which is the first letter you need.

A B C....Z

1 3 5....51
